Languages

Telugu – A1
English – A
Hindi – A

Servers

➢ Apache Tomcat 9.0
➢ XAMPP
➢ POSTMAN (run Backend API'S).

IDEs

➢ Eclipse
➢ Notepad++
➢ VS Code.
➢ Net Beans

Skill Highlights

➢ Strong decision maker.
➢ Complex problem solver.
➢ Learning New Things.
➢ Service-focused.
➢ Logical Thinking.

Education

Master of Science: M.S.Cs - CS (2018 - 2020), Sri Venkateswara University, 74%.

Bachelor of Science: B.S.Cs - CS (2015-2018), V S University, 82%.

Intermediate: M P C (2013 - 2015), Board of Intermediate, 84.6%.

SSC: 10th -2013, Z.P.O High School, 65%.

Microsoft Skills

➢ MS -WORD
➢ MS- EXCEL
➢ MS – POWER POINT

Programming Skills

➢ Node JS
➢ Express JS
➢ Go Lang
➢ HTML
➢ JavaScript
➢ Typescript

Database

➢ Mongo DB
➢ My SQL
➢ PostgreSQL

Version Controls

➢ GitLab.
➢ GitHub.

Professional Experience

Organization:	**Happiest Minds Technologies**.
Website:	**https://www.happiestminds.com**
Designation:	**Software Engineer**.
Duration:	**Feb - 2022 to Till Date.**

Projects

Project Details

Marketron:
(APR – 22 to JUN – 23)

Web Site: https://www.marketron.com/

Technical Skills:
Node.js, Express.js, Typescript, JavaScript, PostgreSQL, AWS S3 Bucket, Authentication Middleware's, JEST, Lo-Dash, JOI Validation, GIT HUB, Sonar and Unit Testing.

Roles & Responsibilities:
- Designing, developing, and maintaining the server-side components of the Marketron application using backend technologies Node.js.
- Developing API endpoints for communication with the frontend and other services (npm pkgs publish).
- Implementing security measures, authentication, and authorization mechanisms to protect sensitive data and add unit test cases.
- Designing and optimizing the database schema to efficiently store and manage data related to multimedia advertising campaigns, media organizations, advertisers, and revenue streams.
- Writing and executing unit tests and participating in code reviews to ensure the correctness and quality of the backend codebase.

Description:
"**Marketron**" is a leading technology company that empowers innovators in the broadcast and media industry to strengthen their market leadership. With a focus on scalability, predictability, and reliability, Marketron offers a range of products and services to help users propose, price, and execute multimedia advertising campaigns across various revenue streams, including television, radio, O&O, and digital media.

Cukzz:
(May – 21 to FEB – 22)

Web Site: https://www.cukzz.com/

Technical Skills:
Node.js, Express.js, Mongo DB, AWS S3 bucket, Authentication Middleware's, GIT LAB.

Roles & Responsibilities:

- Design, develop, and implement robust and scalable backend systems to handle various functionalities of the Cukzz app, including user management, order processing, payment integration, and data storage.

- Optimize and maintain the database schema, ensuring data integrity and efficient querying for seamless app performance.

- Create and manage APIs that facilitate smooth communication between the frontend and backend, enabling the app to deliver a seamless user experience.

- Integrate various third-party services, such as payment gateways and cloud services, to enhance the functionality and features of the Cukzz app.

Description:

"Cukzz" is a revolutionary food app that empowers individuals with exceptional culinary skills to capitalize on their talent and improve their quality of life. By connecting talented cooks with hungry consumers, Cukzz enables them to generate income and create a better standard of living for themselves and their families. This innovative platform creates opportunities for food enthusiasts to showcase their talents, build their culinary businesses, and fulfill their aspirations. With Cukzz, cooking becomes a source of income and empowerment, fostering a thriving community of culinary entrepreneurs and satisfied customers.
